+INFO ON COVERSEAL.COM

## *A reliable & patented technology*

The exclusive, patented Coverseal system comprises a unique mechanism that allows the fabric to unroll and lock in place thanks to an extra-flat, extremely discreet, 10 mm thick rail. The fabric was developed by the Serge Ferrari brand, the world leader in this market, for top resistance to UV rays, extreme climatic conditions and the most exacting standards, particularly NF P90-308 of December 2013.

# The *benefits* of the Coverseal.

The Coverseal brand was born from the desire to provide a *solution* that is as *aesthetic* as it is *efficient*.

EN SAVOIR +

# Automatic Model.

The «Automatic» model is the crown of our range, combining technology, aesthetics and respect for the environment. Actuated by a wired or wireless control unit (with the pool kept in sight), it will provide you with optimum convenience and allow you to uncover or make your pool safe in less than one minute. His cover is chosen by demanding customers who refuse to compromise between aesthetics and performance.

[LEARN MORE +](#)

# Semi-automatic *Model.*

The "Semi-Automatic" is characterised by a control unit equipped with batteries that can be charged on your domestic electrical supply within hours. Once this unit is charged, a couple of dozen opening/closing cycles are possible. Making your basin safe or uncovering it to enjoy it is effortless, in less than one minute.

[LEARN MORE +](#)

# Manual Model.

The "Manual" model is the ideal solution for pool owners who wish to make the most of all the advantages of a Coverseal on a tighter budget. Actuated by a single-person-courtesy of a ratchet key, it allows you to guarantee maximum safety for your loved ones but also to keep your water cleaner and warmer, as do our "Semi-Automatic" and "Automatic" models.
